

The Acorns Day Nursery

No Smoking Policy

The Acorns Day Nursery is committed to providing a smoke free environment.

In line with the Statutory Framework for the Early Years Foundation Stage the objectives of this policy are;

- To protect non smokers from the adverse health effects of environmental tobacco smoke in the work place.
- To demonstrate our commitment to promoting the health of children and staff.

Smoking is forbidden on the nursery premises, this includes inside the building and outside in the play area. Smoking is also forbidden on the site of St Stephen's Junior School and St Stephen's Infant School.

If staff do smoke on their break outside of the grounds then they are asked to ensure they do not smell of smoke when they return, this includes on their clothes and on their breath.

Policy Implementation

- Staff members will be given a copy of this policy when they join the setting and sign to say they agree to abide by it.
- Signs will be displayed around the nursery environment to enforce this policy and to make visitors aware that we are a no smoking environment.
